Who is HZCORK

THE BEST ECO-ECONOMY

CORK FOREST

With an area of approximately 2.3 million hectares, the cork oak forest is one of the richest ecosystems in the world, being considered one of the planet's 36 biodiversity hotspots.

Most cork on the market today is from Portugal, the world leader in cork production and home to the largest collection of cork oaks.

WHAT IS CORK

Cork is the bark of the cork oak, removed every nine years when the tree is in a more active stage of growth and it's easier to peel it without damaging the trunk.

Cork is a wonderful Leather alternative to leather, as it is a sustainable, high-quality material that is made to be durable and resistant. Besides being waterproof, elastic, fire resistant and unique in its appearance, it is a naturally harvested material!

Excellent characteristics of cork

Vegan & Unique

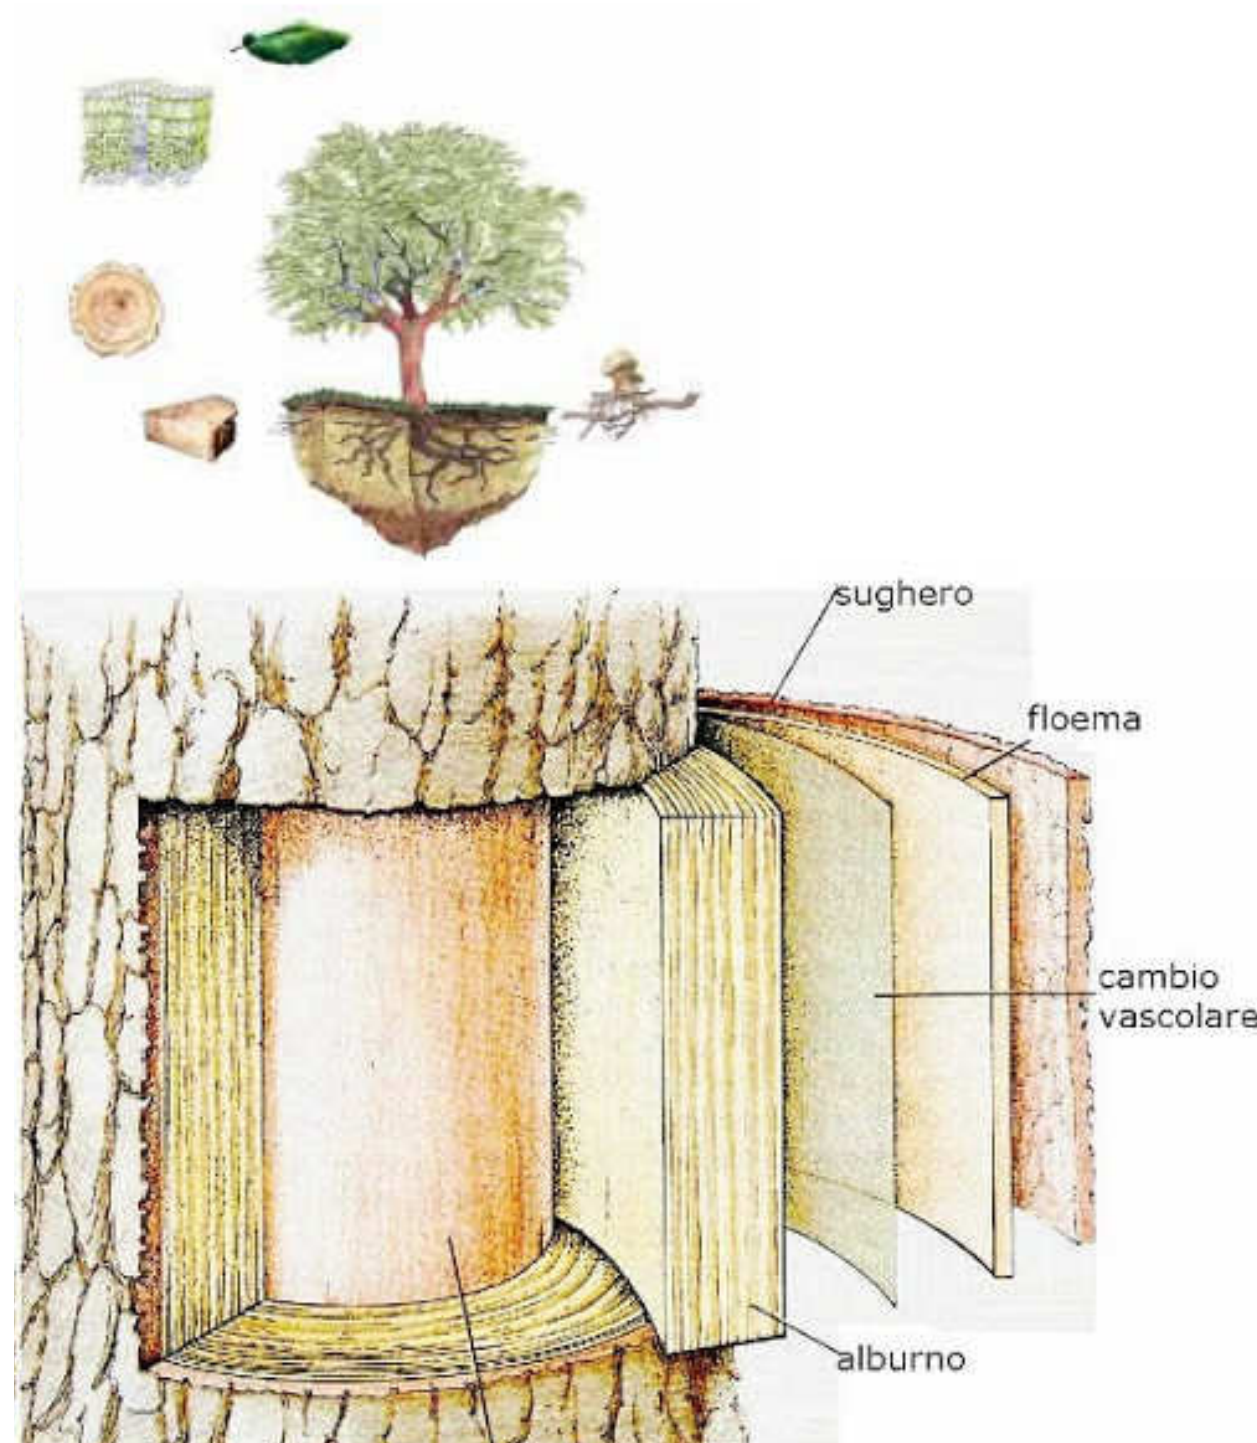

Elastic & compressible

Antistatic & anti-allergic

Excellent thermal & acoustic insulator

Lightweight

Impermeable to liquids & gases

Slow burning

Wear resistance

You may wonder how tree bark can be made into such a artwork.

2

WHAT IS CORK FABRIC

In fact cork leather it is a relatively light layer of cork paper, it can not be used directly, it needs to be laminated with other fabrics to use, rest assured, usually using environmentally friendly glue lamination. For example, bamboo fiber fabric organic cotton fabric or other different fabrics, depending on the use of the scene.

Cork Leather Fabric

The Best Alternative to Animal
Leather

HZCORK

Cork fabric is as durable as leather,
has the same touch pro quality.

Cork Leather

It comes from bark of cork oak tree.
So it's plant based leather, does no
harm to the animal.

HZCORK

We have many different color versions and patterns for your huge choice. We usually fix color at least 3 times, no color fading issue.

Colored Cork Fabric

We use natural dyes to make one color of cork look brilliant.

HZCORK

The bark of cork oaks rebuilds itself every 9 years which means cork fabric is a great example of a sustainable material.

Natural Cork Fabric

Since we use plant-based fabric and backing, our cork fabric can be degraded by nature easily and fast.

HZCORK

We have a set of printing patterns for your choice, customized printing design is also welcomed.

Printed Cork Fabric

We usually do printing by silk screen printing or digital printing, without color fading issue.

HZCORK

WHO IS HZCORK

*As one of the leading cork fabric manufacturers
and suppliers in China*

HZCORK

DONGGUAN HUICHUNG CORK PRODUCTS CO., LTD

Established in the year 2015, located in Dongguan, China. We are an original factory to manufacture cork leather fabric and other Cork items. Cork Fabric can be widely used in many different applications. Our founder was engaged in making cork for more than 10 years, obtaining abundant experience and knowledge. Our factory has strict control over the sorting of cork raw material from Portugal and high standards on inspection goods. Although we are focused on production, we offered competitive prices without compromising on quality control and service standard. Our factory has AAA credit, ISO9001 certificate over quality control, and FSC, REACH SVHC, DFMA certificates regarding cork material.

LEADING MANUFACTURER OF CORK PRODUCTS

There is less than 5 cork fabric factories in China until now, we are one of the leaders. All our cork raw material was imported from Portugal with FSC certificate. We sort materials by hand in strict accordance with Portuguese standards. So quality was promised. we have high qualified workers, high production efficiency, perfect supporting facilities and lower labor cost. So we can do complicated cork fabric and bags with fast delivery and competitive price.

THE SERVICES WE PROVIDE

Cork Leather Fabric

Our factory has a complete production chain and Perfect Support, has enough inventory of more than 500 patterns

Cork Products

Our factory specializes in not only cork fabrics manufacturing but also focuses on other finished cork products, such as cork bags, cork wallpaper and cork yoga products

Custom Solution

Thanks to our extensive network of cork processors, we can offer not only a wide range of cork products but also customer-oriented services and individual cork solutions.

The mark of responsible forestry

The Circular Carbon Economy

As one of a leader in the cork industry, sustainability, technology and innovation are intrinsic pillars of our culture and strategy. We focus on developing products and solutions that offer unparalleled advantages, including reducing the carbon footprint of the final product, saving energy or water, cleaning the environment, improving indoor air quality and promoting well-being and comfort.

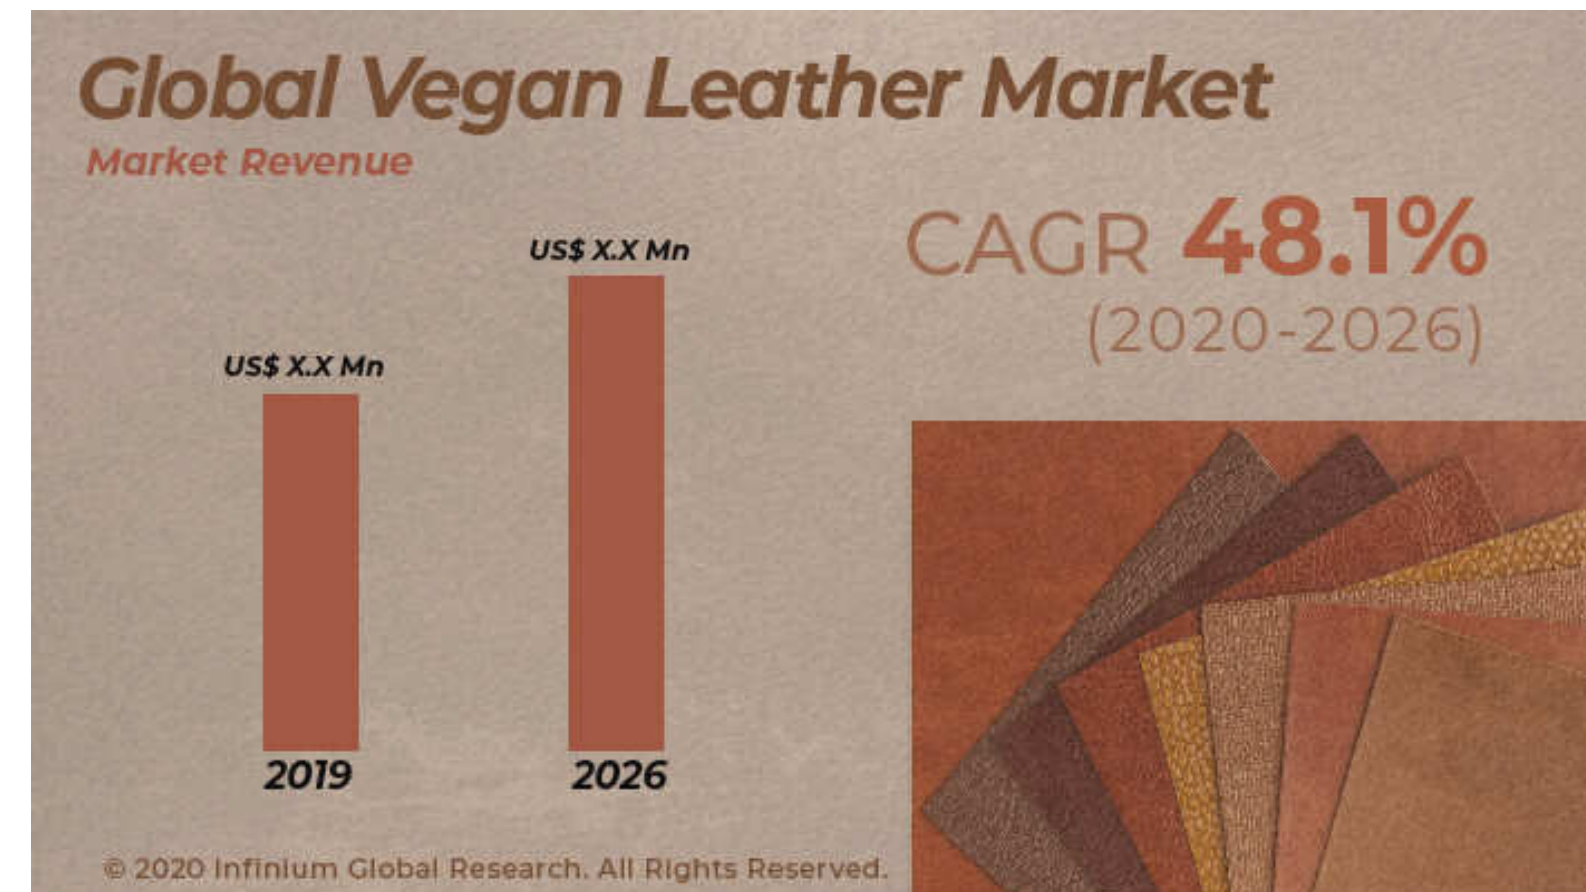

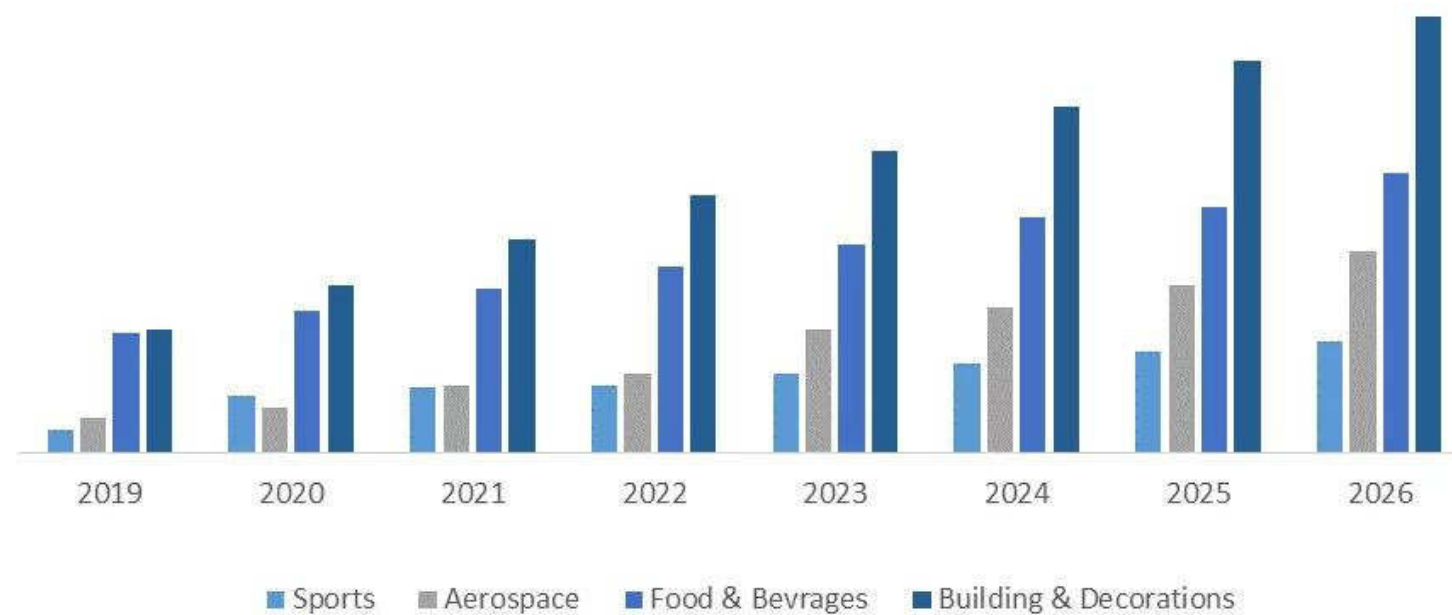

CO2	CO2	CO2
112G	73,000KG	14,000,000T
Each cork can absorb an average of 112 grams of CO2.	For every ton of cork produced, a cork oak forest can sequester up to 73 tons of CO2.	Cork oak forests can absorb 14 million tons of CO2 per year.

Cork is the future of sustainable development

The number of people adopting vegan culture has increased significantly due to the increasing awareness about animal cruelty along with the rising ethical and environmental concerns among the consumers. The global vegan leather market is projected to grow at a CAGR of 48.1% over the forecast period of 2020-2026. North America holds the maximum share in the global vegan leather market, Europe is the second-largest market for vegan leather owing to the increasing demand for animal-free and eco-friendly alternative products. China is the largest vegan leather market in the Asia Pacific.

Global Cork Material Market, by Application Segment 2019-2026 (USD Million)

From bark to cork leather finishes, our designers have professional knowledge and practical experience to create high-quality natural cork leather for many industries, such as the automobile, handbag, fashion, footwear, interior design, etc. Utilizing cork fabric to make consumer goods impacts the whole leather industry and dramatically benefits our environment.
