

Versa Sustainable Solutions aims to reduce organic waste at the source.

Versa is the exclusive distributor for REDDONATURA in the **U.A.E** and **U.K.**

The REDDONATURA composting machines reduce organic waste by up to 97%, leaving behind 3% of nutritional organic compost that can be used as fertilizer for soil.

The REDDONATURA machines have a wide range of capacity, so as to provide a solution to restaurants, hospitals, hotels, farms, zoos, and municipalities.

Versa is the distributor for SMARTCARA, an Award Winning Food Disposal Solution with the capacity range of 2 to 5 kg, ideal for house holds, offices, schools, ect.

Founded in December 2019, we look forward to a future of sustainable waste disposal.
