LEANSTREAM

LS1B-005

DESIGNED WITH DURABILITY IN MIND

Made from high-grade HDPE plastic and designed with sustainability in mind, the **LeanStream** can be recycled at end of life.

Manufactured to stand the test of time, the **LeanStream** is safe for all types of applications including factory floors, warehouses and manufacturing facilities.

SMALL FOOTPRINT, HIGH VISIBILITY

With its stream-lined design, the LeanStream still leaves room for high visibility company branding and helps direct more waste in the correct streams with high visibility backboards to reduce contamination.

SERVICING MADE EASY

The **LeanStream** features CleanRiver's patented bow-tie system that is pain-free and keeps your waste bags secure and tight.

Easy to insert and remove, you'll never struggle with your bin bags again!

Watch how: <https://youtu.be/GyxPmc3T3c0>

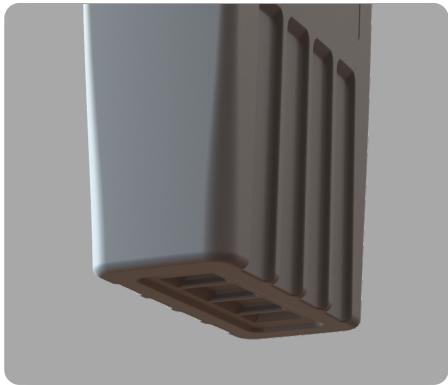

Recycling is Smart.

The LEAN**STREAM** Makes it Simple.

High-strength aluminum connectors keep your bins securely attached to each other - no tools needed.

Streamline the service and maintenance of your bins with the vented design that allows for easy bag removal.

Choose from 3 top plate colors and 8 different opening shapes to connect up to 8 unique waste streams.
