

# EKOMATS

Ekomats are a superior, multi-purpose tool offering strength, flexibility, slip-resistance and a rot-free surface. They prevent damage, save time and money, and increase safety in a wide variety of applications.

**Made from plastic shopping bags and other landfill-bound plastic**

## Ground Access

Enable vehicles and people to cross soft and muddy areas, or access shorelines.

## Landscape Protection

Avoid damage to lawns, gardens, and landscapes and the costs of repair

## Walkways & Trails

Creating improved access at lower cost using green materials

## Pavement & Concrete Protection

Vehicles / equipment / dumpsters
